

STELLA LUDWIG

INTERIOR REDESIGN SERVICES

Full-service interior design, staging and consultation.

Whether you have traveled the world collecting or chosen items that reflect where you want to go, Interior ReDesign Services can create a space that will surround you with inspiration. Stella Ludwig, designer for Interior ReDesign Services in Center City, creates personal environments that are not only comfortable and efficient but also display a certain character and panache. She helps her clients unify what they own or discover their own unique style.

Stella's philosophy is quite simple; she seeks to create a space that has functional integrity and is aesthetically pleasing, through space planning and the interplay of color and texture. In this home, she displayed the client's pre-Columbian, Asian and antique collections in a harmonious and elegant way, while adding her signature punch of color.

It doesn't matter if your style is expressed through classical, traditional, modern, contemporary or eclectic design—or if it is yet to be discovered—contact Interior ReDesign Services to discuss how Stella can create a space that reflects your personality.

"I am inspired by fashion and travel. I use my education and skills to create well planned spaces while drawing on my experience and international background to add flair into my designs."
